

ASHOK SANAKA

+91-9705061039 | ashoksanaka116@gmail.com | linkedin.com/in/ashoksanaka | github.com/Ashoksanaka

PROFESSIONAL SUMMARY

Entry-level DevSecOps professional with practical experience in CI/CD automation, security assessments, and infrastructure management. Proficient in Python automation and Linux administration, dedicated to implementing security best practices and building automated cloud pipelines.

EDUCATION

M.Tech in Aerospace Engineering 2025 – present
Indian Institute of Engineering Science and Technology, Shibpur
CGPA: 6.9/10

B.Tech in Electronics and Communication Engineering 2021 – 2025
Anil Neerukonda Institute of Technology and Sciences, Visakhapatnam, India
CGPA: 7.9/10

PROFESSIONAL EXPERIENCE

DevOps Engineering Intern Aug 2025 – Present
Bridge-It Remote

- Implemented CI/CD pipeline automation on GCP cloud services using security best practices and GitOps workflows, reducing deployment time and enhancing release reliability
- Configured Sentry and New Relic integration for real-time application monitoring, error tracking, and performance analysis, enabling proactive incident response
- Conducted vulnerability assessments on production systems and assisted developers in remediating critical security vulnerabilities through code analysis and security scanning
- Secured PostgreSQL database infrastructure by implementing trusted client restrictions and RBAC authorization, reducing unauthorized access risks

Information Technology Intern Jan 2025 – Mar 2025
Encrypta Remote

- Led development team in building secure bulk mailing system with Python Flask, implementing input validation and security controls to prevent injection attacks
- Monitored server infrastructure uptime and performance via SSH across multiple shifts, identifying and documenting security incidents and system anomalies
- Collaborated with development team using Git version control and contributed to repository maintenance

TECHNICAL PROJECTS

Web Application Penetration Testing Lab Ongoing
Technologies: Kali Linux, Burp Suite, OWASP ZAP, Metasploit, Python

Secure Bulk Mailing System Jan 2025 – Mar 2025
Technologies: HTML, CSS, JavaScript, Python (Flask), Git

TECHNICAL SKILLS

DevSecOps & CI/CD: Cloud Security, CI/CD Automation, Security Scanning, GitOps Workflows
Programming & Scripting: Python, Bash Scripting, JavaScript, C, C++
Security Tools: Burp Suite, OWASP ZAP, Metasploit, Nmap, SQLmap, Kali Linux, SonarQube
Infrastructure & Cloud: Linux System Administration (Ubuntu, Debian, Kali), Docker, Kubernetes, Terraform, AWS, GCP
Automation & Configuration: Python Automation, Bash Scripting, Git, Version Control
Monitoring & Logging: Sentry, New Relic, Log Analysis, Incident Response, Performance Monitoring
Database & Security: PostgreSQL, SQL, Database Hardening, RBAC, Secure Configuration
Networking & Protocols: TCP/IP, Network Security, Cryptography, Wireshark
Frameworks: OWASP Top 10, MITRE ATT&CK
